## EVERGREEN TREES AND SHRUBS—GUIDE LINE

I invite particular attention to my large blocks of Arbor Vitae, White Pine, Retinospora, and to my collection of Thujas.

In addition to our plan of root pruning and transplanting, most of our evergreens are sheared yearly with the effect of producing dense, perfect specimens.

All evergreens sold at 50c. or more will be dug with ball of earth and the roots of each burlapped separately.
